## PROFILE

I'm Pablo, a programmer and lawyer transitioning fully into tech after 11 years in the legal field. Since 2022, I've focused on front-end and full-stack development using React, Java, and Spring Boot. With strong analytical skills, communication, and a passion for learning, I'm eager to contribute to impactful, purpose-driven tech projects.

## WORK EXPERIENCE

- Mercor & Outlier** 2023 - PRESENT  
Ai Training
  - Worked on AI training projects involving math, logic, reasoning, audio, and programming tasks. Contributed to data generation and model evaluation to improve large language model performance.
- Semillero Latam** 2024  
Front-End Developer
  - Developed a web application using React, Java, and Spring Boot to connect investors with environmentally committed small businesses. Contributed to UI design, authentication flow (OAuth2), and integration with backend services.
- Federal Prosecutor's Office & Private Practice** 2012-2023  
Lawyer
  - Over 11 years of legal experience, including work at the Office of the Public Defender and the Federal Prosecutor's Office in General Roca and as an associate lawyer at Galindo-Augugliario-Hermida Law Firm, handling complex litigation and advisory cases. Known for analytical thinking, clear communication, and strategic problem-solving.
